FRENCH CITIES
BADLY DAMAGED.

By Associated Press.
Paris, Nov. 1.—A violent storm has
swept over the south of France ac-
companied by heavy falls of snow on
the coast and a tidal wave. Many
small craft were torn from their an-
chorage and wrecked and the quays
were flooded. Nice fared very badly,
the streets, and famous promenade,
were under water a foot deep. The
shops there were so badly flooded that
the contents of some of them were
totally destroyed. It is estimated that
the damage done will amount to a
large sum.

PENNSYLVANIA'S AID

In Ascertaining True Cause
of Fatality, Is Spok-

Two Witnesses Agree as to
How First Car Left
the Rails.

By Associated Press.

Atlantic City, Nov. 1.—In antici-
pation of startling disclosures, a
large audience gathered at the coron-
er's inquest today which is to exam-
ine and fix the responsibility for the
electric railroad wreck of Sunday.
Foreman Lee, of the coroner's jury,
arose at the opening and asked per-
mission to make a public statement,
in which he denied a story printed in
a Philadelphia paper alleging that
he had prejudiced the innocence of
the railroad company.

Coroner Gaskill then charged the
jury to discover the cause of the ac-
cident whether by the act of God or
man. Attorney Bourges, for the
railroad company, offered the exten-
sive resources of the Pennsylvania
company to assist in ascertaining the
true cause of the accident.

James Curtis, the conductor of the
wrecked train, testified that there
was no delay and that the train
reached Pleasantville one minute
ahead of time. The first he knew of
the accident was a sudden bump and
then the train dashed into the
Thoroughfare. He denied that he
had been warned before leaving
Camden that anything was wrong
with the car. He admitted that
there was a decided bump just as the
accident occurred.

Chas. M. Kester, whose yacht, the
Sinbad, required the draw to open
just prior to the accident, said he
had just tied up at his wharf when
he heard the crash. He hurried back
in a boat to do what he could. He
had no quarrel with Bridgetender
Stewart about refusing to open the
draw.

Geo. McCullough who was passing
on the turnpike bridge opposite the
electric bridge when the accident
happened, said he saw the electric
cars go overboard. The right hand
wheels and the front truck of the
leading car, he said, left the rails
first.

John Williams, a watchman at
Somers lumber camp, corroborated
McCullough's statement with refer-
ence to the forward car being the
first to leave the track.

BRITISH VESSEL
BURNED ON SEA.

By Associated Press.
Queensdown, Nov. 1.—The British
steamer Vedamore, from Baltimore,
October 20th, for Liverpool passed
Kanselhead this morning and signalled
that she saw the British steamer
Nemea abandoned and on fire in lat-
tude 51 north and longitude 15 west.
The crew of the Nemea with the ex-
ception of two men, who were lost,
were taken on board the Vedamore.
The British steamer Sylvia from Bos-
ton, October 24 for Liverpool, also re-
ported subsequently seeing the Nemea
on fire in about the same position, or
about two hundred miles off the Irish
coast.

The Nemea left St. John, N. B., Oc-
tober 16th for Manchester, England.
She was commanded by Captain Shaw,
was of 2,559 net register, was built at
Port Glasgow and was owned by W.

victory in the changes made in the
original draft of the canal contract
made public today by direction of the

As the contract originally was drawn
it provided that contractors' supplies
would be carried at half rate over the
Panama railroad steamship line. One
of the changes announced today omits
this provision and throws the freight
business open to all competing ports.

By Associated Press.

Washington, Nov. 1.—The South
Pacific wants 5,000 laborers. This is
the statement of one of the officials.
Orders have just come from Harriman
to hasten the development of the
Pacific Slope lines. Within the next
two years over \$25,000,000 will be
spent in the construction of lines on
the Pacific coast by the Harriman sys-
tem. It is the preparation for the
great struggle in railroad competition
that is coming. With Hill on the north
and the Gould lines cropping across
the continent, Harriman realizes that
it will mean a great fight and that the
life of the big systems will depend on
the completeness with which they are
equipped with feeders. Hence at every
available point small roads are being
absorbed. Others are being built and
the Southern Pacific is developing all
territory possible to get ready for
what Harriman calls the "age of rail-
road competition."

Attorney General Moody
Admits Trusts to be
the Issue

OF GREATEST IMPORT.

Will Proceed Against Them,
With Sufficient Evi-

Regardless of All Personal
or Political Conse-
quences.

By Associated Press.

Boston, Nov. 1.—In political speech-
es at republican rallies at Beverly and
Salem last night, Attorney General
William H. Moody, said that he was in-
vestigating the "Great and Powerful
Coal and Oil Combinations," and that
if he found evidence of illegal combi-
nations "he would proceed without re-
gard to personal or political conse-
quence."

Mr. Moody said:
"A few weeks ago Mr. Bryan said
that the trusts were the paramount is-
sue. I am not quite sure that he isn't
right. He expressly congratulated
President Roosevelt on the step he had
taken in the enforcement of anti-trust
laws."

"We are in the midst of great indus-
trial activities and prosperity. Great
evils are arising out of this condition,
and President Roosevelt is determined
to remedy it if a remedy can be found.
"The great industries are no longer
conducted by the individual but by or-
ganized capital. Organized capital in
modern industries is a necessity. The
organization of labor and the organi-
zation of capital are here to stay, but
we have the right to ask both that
they shall obey the laws of the land."
"When the combination of wealth
obtains great power,—as it will—it de-
stroys the individual initiative, dis-
turbs the normal growth of commerce
and sometimes the government.
"I myself have seen written on a
sheet of paper the price of killing off
of competition. I have seen the cost
of driving out of business the bold in-
dependent and the division among all
the confederates. It is not wise that
the people let any combination like
this exist."

He continued:
"Mr. Havemeyer, the sugar man, says
that the tariff is the mother of trusts.
It isn't the tariff that is mother of
trusts,—it is the railroad rebate that
is the mother of trusts and all of its
collateral relatives."

\$600,000 Deposits.

By Associated Press.

Philadelphia, Nov. 1.—Under the
presidency of Geo. H. Earle, Jr., the
Real Estate Trust company of this city,
which failed on August 28th, re-open-
ed for business today. The company
failed because of financial irregulari-
ties on the part of Frank K. Hipple,
its president, who before the failure
committed suicide. Mr. Earle was ap-
pointed receiver and the concern
opened under a reorganization plan
perfected by him. More than \$600,000
was deposited in the first hour of busi-
ness.

Mr. Earle has accomplished what
men of long experience consider al-
most a miracle in finance, it being the
first case on record in this state where
a big banking concern, loaded with
assets, was rehabilitated in so short a
time and with the unanimous consent
of its creditors.
It is also the first time that assent
to reopen such a proposition has been
obtained from all the stockholders and
depositors; all other rehabilitations of
banking concerns having been com-
pelled to take recourse to the sixty
day legal notice and subsequently de-
pending on the consent of a majority
of the creditors. In this case, how-
ever, every depositor and stockholder
signed a policy to have Receiver Earle
act for him and to this unique feature
more than any other is credited the
speedy resumption of business in the
bank.

Ashenback called the matter to the attention of the commission contending further that the Scranton club had failed to give him notice regarding continuance of his contract as manager and that they therefore had no claim on him. The commission sustained the claim that as a non playing manager he could not be placed on a reserve list but declared that the other matter should be taken up with the national association which had jurisdiction.

OHIO STATE
Will Clash with Oberlin Saturday Afternoon.

One of the biggest football games of the season will be the one at Oberlin next Saturday between the Oberlin Varsity eleven and the team from Ohio State University. In anticipation of the large crowd expected the Oberlin Athletic Association, the students, the merchants and the citizens in general are preparing to celebrate the event by decorations of the college colors and make it a gala day. Between 2,000 and 3,000 spectators are expected. A strong wire fence is being erected to prevent any crowding on the part of the spectators. Every provision is being made for the satisfactory handling of the game. A students' mass meeting is to be held after chapel next Friday noon and a rally of the men of the institution will be held in the evening. The officials are: Referee, Dr. W. D. Inglis, of W and U.; Umpires, Dr. Charles Hatfield and W. T. Fishleigh, both of the University of Michigan.

MOTHER'S FRIEND

FAIR TACTICS
Only are Demanded by Lima Eleven.
Game With Piqua Expected to Be a Clean Cut Contest.
PIQUA COMES TO LIMA
For the Return Game on the College Grounds Tomorrow.
Promised to Name Neutral Officials and Must Do So.

The Piqua papers are endeavoring to roast the coach and management of Lima high school's football team, because of the demand here that prejudiced officials not referee or umpire the game set for tomorrow afternoon at 3:30 o'clock on the college campus gridiron. The Piqua Call is sadly misinformed in the following statement made in its issue of yesterday: "Lima high school is still insisting on naming both officials for the game there Friday. When word was first received that this was what they wanted to do, it was thought that the school would soon recede from its unreasonable position, but for several days they have insisted on bringing the officials from other towns, both to be neutral, according to their statement. They not only want to name both of these 'neutral' men themselves, but also want Piqua to share in the extra expense of bringing them there. They claim that their reason for this action is that they were not satisfied with the work of Dr. Crawford on Piqua's grounds. This dissatisfaction has certainly come up since the team left here as after the game the Lima captain, Knisely, expressed himself to Holloway and Dr. Crawford as being well satisfied with the decisions. This was what all the other Lima men said then."

"The only reason that can be found for such a complete change is the fact that Houck, who was formerly with Sidney and there conceived a grudge against Piqua, is now with Lima. He has apparently caused the trouble. This morning Manager Thomas telephoned him, saying that Piqua would insist on Dr. Crawford Houck said that they would have the 'neutrals' or would call the game off."

Coach George Houck when seen this morning relative to the above, stated that it was an error. He said the decisions of Dr. Crawford had been grossly unfair in other contests played by Piqua and all that was desired here were fair tactics and let the best team win, but he did not desire the game to be played by biased officials and the players' work go for naught. Sidney objected strenuously to Dr. Crawford's work recently and at the close of the last half in the first Piqua-Lima game Piqua agreed that neutral officials should be chosen for tomorrow's game, and Knisely never expressed satisfaction with the dentists' work in the other game.

Coach Houck, however, said there would be no trouble and the officials would be decided upon by phone this afternoon, and the game should be one of the very best of the season, as both teams were about equally matched.

The attendance at the football games of both college and high school this year has been very meagre, and it is to be hoped a loyal crowd will be out tomorrow afternoon to root for the colors of Lima high.

SECOND TEAM WON.
Blanked Their Opponents at Columbus Grove.

The second team of Lima High school went to Columbus Grove yesterday and in a well played game blanked their opponents, while Lima scored a touchdown and cleverly kicked goal. This is the fourth contest of the year the second eleven has won all by the score of 6 to 0, not yet having been scored against.

COUPLE STARVED ON BED OF MONEY.
Philadelphia, Pa., Nov. 1.—Lying on mattresses stuffed with money and other evidences of wealth, Mrs. Jane McDermott, 50 years old, and her daughter, Ella McDermott, 64 years old, were found dying of starvation in their home, 426 Federal street.
The house was vermin infested and filthy. The mattresses on which the women rested and which were the treasures of so much wealth were rotted with age. It was through the investigation of neighbors that the couple were discovered. The elder woman was so emaciated by lack of food that she passed away before she could be removed to a hospital. The daughter was sent to the Philadelphia hospital, but she is so weak that little hope is entertained of her recovery.
There had long been rumors in the neighborhood that the couple, who professed to be too poor to provide themselves with the necessities of life, were in reality wealthy. A search of the house was made under the direction of Special Officers Henderson of the Seventh and Carpenter street station house.
Between the mattresses of the bed the police found seven bank books, indicating that the couple had a large sum on deposit. Three of the books were so moldy with age that they almost fell apart. The other four were filled with records of deposits, and there was nothing to indicate that any had been drawn out.
The police found that the edges of the mattress had been ripped open and sewed up so it could be used to hide money. How much cash was actually inside they were not prepared to say.
The police put the house under guard, pending the arrival of a relative of the aged couple, who is expected.

One of the many good stories told by the late Mr. John George Whit, K. C. relates to Mr. Justice Cave. Counsel for the plaintiff in a case tried before him had called four witnesses without advancing the case at all. The learned judge said, "These are bad witnesses, bad indeed! Have you got a good one?"
"O. yes, my lord," said the counsel. "Then call him at once," said the judge. "If you keep him any longer he will go to the bad like the rest."—Tit-Bits.

The Independent Republican, published by John S. Wagenhals, one of the most prominent of the wealthy citizens of Columbus, Ohio, in his issue of this week an editorial personally signed by Mr. Wagenhals in which he appeals to the rest republicans of Ohio to help save the party from the bosses who are now in control. He well says that bosses can only be defeated by defeating the ticket named by them. The editorial follows:

"Our state convention was absolutely dominated by Senators Dick and Foraker, who browbeat the delegates into supporting them, through threats of every conceivable nature. Every officeholder in Ohio was made to believe that he was under peculiar obligations to one or the other of these senators and was commended upon penalty of losing his job to get busy in their behalf.

"The president was mockingly endorsed by Dick and Foraker, and the two senators were endorsed without reserve. Inasmuch as the platform says that they are endorsed without reserve, it must be inferred that the president was endorsed without reserve. Foraker and Dick opposed Roosevelt, and either they or the president is wrong. It is an insult to thinking republicans like myself to be asked to approve a platform that endorses both right and wrong.

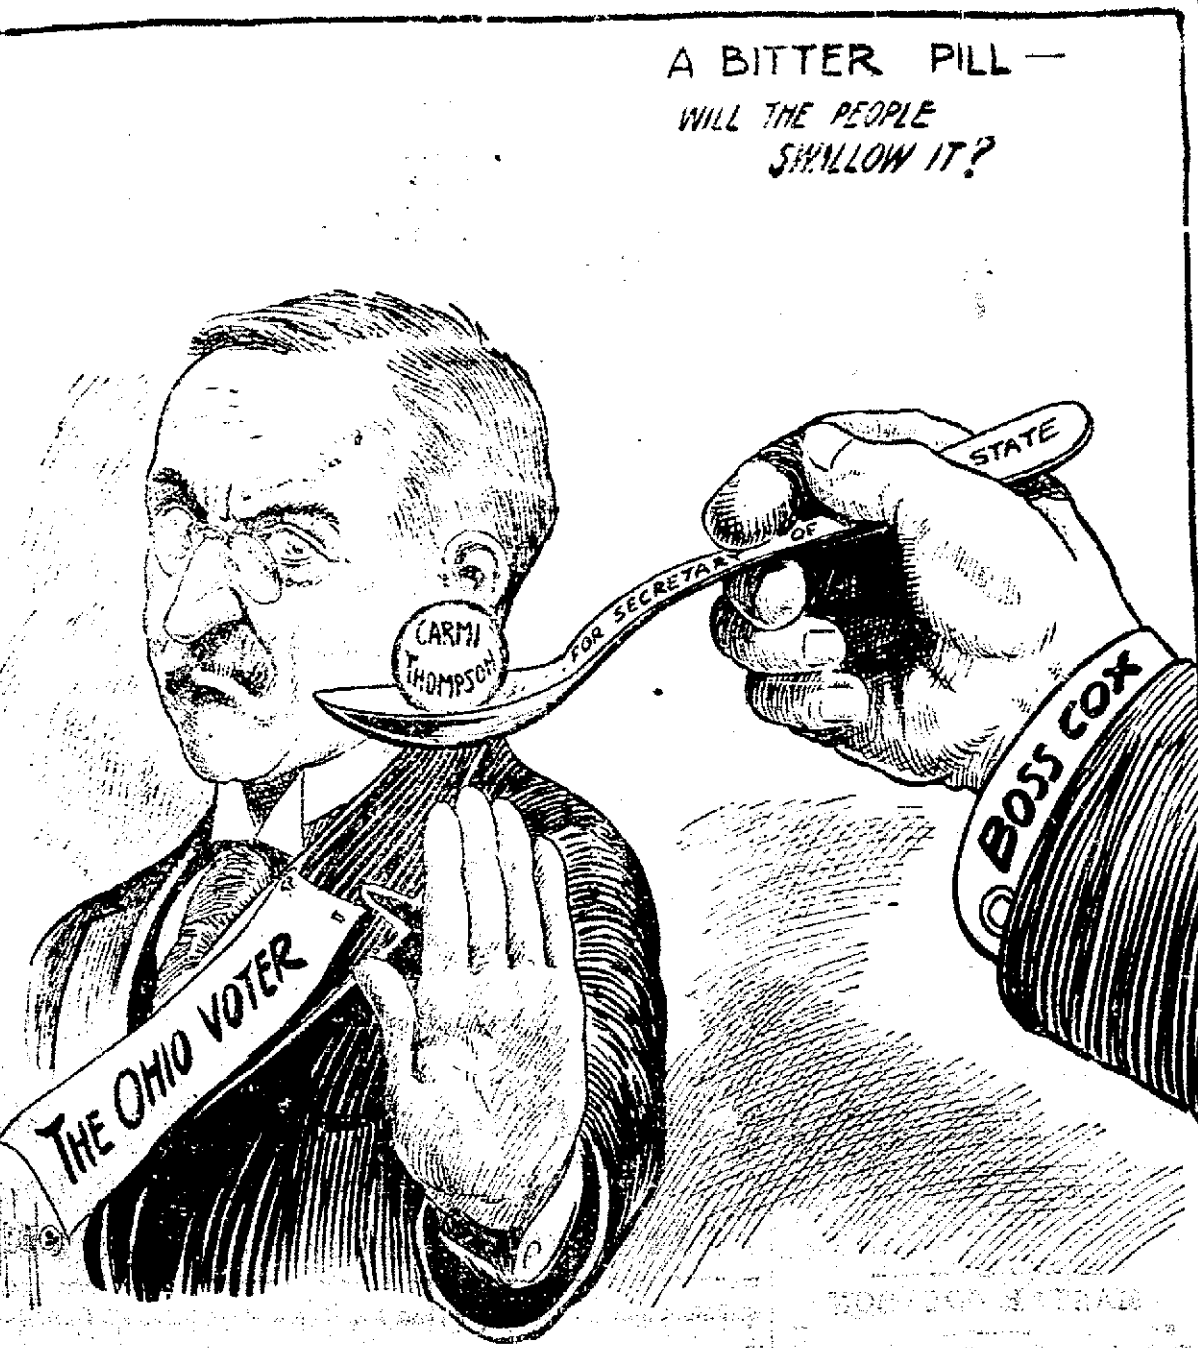

"I do not believe that conscientious republicans will permit their party to be brought to such base uses as the two senators from Ohio seek to bring it. I have entered my protest with all the vigor at my command and I have, employed, thank God, no weapons except those that have been placed in my hands by better republicans than those whom I have attacked. The state ticket nominated at Dayton was

BOSS COX---"TAKE THIS. HE SAVED ME."

dictated by Foraker and Dick. To vote it is to vote for them. To elect it is to give them a certificate of character; to give them an endorsement instead of President Roosevelt. To elect it is to license them to return to Washington this winter and proclaim to the corporate influences that are seeking to control the republican party, that they instead of Roosevelt have Ohio at their back. The issue is so distinctly drawn that Secretary Taft, Ohio's representative in the cabinet, in his address in Cleveland's last September, might not refer in any way, particular to either of Ohio's senators or to the state ticket that they nominated at Dayton. Secretary Taft, the president's undoubted choice for his successor, Ohio's only representative in the cabinet, the most distinguished member of it, failed to receive a single word of approval in the platform. Their manifest intention was to secure a victory through parsimony if possible, and have it construed into a personal endorsement of them rather than a compliment to the president.

It seems to me that our party must cast out these traitors or march straight to annihilation. I am ready to do my share in the work. Are you? I believe you are fatigued or I would not write thus. Are you? I believe you are conversant with conditions or I would not address you. Will you join with me and more than a hundred thousand other republicans in this effort to throw off this senatorial incubus and get our party in fighting trim for the battle of 1908? You know as well as I do that unless the republican state ticket is defeated this year and Dick and Foraker thoroughly rebuked that they will be in the ring again in 1908. And there are thousands of republicans who are not so patient or so loyal to the party as you and I, who will resent, even in a presidential year, the continued bossship of these senators. That being true they will go to the polls in 1908, and in their zeal to deal another blow to the bosses, they will weaken our presidential ticket. We had better clear the decks this year than take the chances of losing the state in 1908. For, talk as we may, this feeling of opposition to bossism is growing and you and I, if we are so disposed, could not stay it. We had better put an end to it this year than to take the chances of defeat in 1908. Therefore, I appeal to you in behalf of republican principles to join with me in the work at hand. Will you do it? Let us by defeating the machine-made ticket administer such a rebuke as will forever put bossism to sleep in Ohio. Let us smash the machine, and then let us meet in the state convention in 1908 with clean hands, free from machine domination, and nominate a ticket that the people will cheerfully elect. You can do more than vote against the ticket that these bosses nominated; you can secure others of your neighbors to do the same thing.

"Let us join hands and rid our party of the bosses that control it. Let us wash our hands of Cox and this Danko 'electing' committee, now or we shall have too much laundry in 1908."

CAPABLE OFFICIALS.

The democracy of Allen county never presented for the votes of the people a cleaner ticket than is offered this fall. There are but three candi-

didate to be elected on the county ticket—commissioner, inferior director and surveyor and all are candidates for re-election. Alex Conrad, commissioner; Henry Mosier, for inferior director, and Charles Craig, for surveyor. They have all been tried for one term and have filled their respective offices to the full satisfaction of the entire people. Their service is one of their chief recommendations for re-election. Their official work has been well performed. All of their acts have been conscientious and capably performed and entitles them to a substantial endorsement by re-election.

BRYAN'S PLEA FOR NON-PARTISAN JUDICIARY.

Mr. Bryan said no sooner set foot on Ohio's soil than he raised his voice in behalf of the independent judicial candidates in several counties of the state. In a struggle between the corporations on the one hand for their candidates for the bench and the people on the other for judges who will be under no obligation save that of discharging the duties of their high office with a strict regard for justice, Mr. Bryan, as must every other man who is sincerely true to himself and his neighbors, did not hesitate a moment in whose behalf his pleading voice should speak.

If we stop a moment to comprehend what that struggle means to the people—to estimate how much of wealth or woe depends upon the outcome of this fight—we shall realize how great a service Mr. Bryan has rendered our native state. That service is not confined to a few counties, but takes in all of Ohio and will go far to bring the people to a determination to do away with partisan courts altogether. It will hasten the day that will make it impossible for all the six members of our supreme court, the three members of our circuit court and the five members of our common pleas court to owe allegiance to one and the same political party. It will hasten the day when the courts will keep but one eye on the case before them while the other is gazing toward the dwelling place of the boss, of whom they must expect and must ask renomination.—Columbus Press-Post.

COLD WEATHER AID TO WHITE PLAGUE.

Annapolis, Md.—The issue of the bulletin of the state board of health is a special tuberculosis number and contains many articles which are of interest to those who are making a study of the disease. The bulletin says regarding Maine as a health resort for consumptives:

In the past we overestimated the value of special climates in the treatment of consumptives. There is still reason to give the climates of some places preference over those of other places. Places some distant inland are better than those immediately upon the seacoast; nevertheless, the curative results in some

sanitariums near the coast have been exceedingly good.

"A good percentage of sunshine is an advantage, nevertheless. At some of the sanitariums in Great Britain, at Norbrack, in the Black Forest of Germany, and in the Adirondacks, where the results have been of the best, there is much very considerable cloudy weather. Mildness of temperature is a convenience, but our consumptives in our northern climes race right away from those in southern latitudes in their progress toward health. In fact, in sanitarium treatment the cure is much more rapid in winter than in summer, whether in Maine, Canada, or the Adirondacks.

"The correct explanation is probably two-fold; the inhibitory action of the cold air upon the development of the tubercle bacilli, and the tonic effect of cold, pure air upon the organisms of the patients, and their enormously increased capacity for taking, digesting, and assimilating food supplies. Further, south altitude is of importance as tending to lower temperature; in the north, sites elevated only enough to escape the foggy fogs from the sea, lake, or river, which lessen the available total of sunshine and dryness of atmosphere for the region, are what is required."

LAD PLAYS JOKE BY THE WIRELESS.

New Haven, Conn., Nov. 1.—Malcolm Doolittle is only 13 years old, but he has rigged up a wireless telegraph outfit with which he has picked up steamers coming into New York bay and Long Island sound. The expert wireless operators aboard have been amused when responding to a call and of receiving the following: "I am 12 years old and a grammar school boy with a wireless apparatus rigged up in my backyard, and I am calling you up just for fun. Let's have a jolly talk just to give me practice."

Malcolm says men on most of the big boats seem too busy to joke or talk with him socially, and some of them get mad when they find a schoolboy in knickerbockers in their wireless correspondence, but he doesn't mind that, and keeps right at his electric amusement. He finds out the score of Yale football games and flashes it along the sound to the boats.

The removal of the several commercial wireless stations from New England has left Malcolm's apparatus the only one of its kind in Connecticut. He says he intends to pick up business and deliver messages all over the city. His wireless pole cost his parents \$100, and they subscribed \$250 for his entire outfit. The lad was led into the experiments by his general reading. When he gets into academic work he will take up electricity and physics which deal with his apparatus, although he knows more about the subject now than most college graduates.

LARGE SUPPLY OF HOLIDAY FOWLS.

If somebody doesn't corner the market Thanksgiving poultry will be very reasonable this year. Indications are that chickens are very plentiful and although turkeys are not as plentiful as the hens there will be no famine in them. Prices, according to the dealers, should be very reasonable this year.

Chickens are now selling at from ten to thirteen cents a pound. Turkeys bring fourteen cents while duck prices range between chicken and turkey prices. The dry summer assisted very materially in the raising of the fowl.

Farmers are beginning to realize the value of poultry on their farms, remarked a commission merchant yesterday, "and more of them are going in for it every year. This means, naturally, an increased supply. Coming from so many different places it is almost impossible to corner this supply, for farmers, above all others, fight shy of trust schemes. They would rather go into the open market and sell their product.

"Another thing which ought to make turkeys cheaper in this country at Thanksgiving is the fact that Canada held its Thanksgiving day last week, a month ahead of our date. In former years Canada consumed all of its own fowls and sometimes sent to this country for supplies. It is different now. A considerable quantity of poultry may be imported to this side of the line if the supply here is found to be below the normal."

A year ago turkeys brought 20 to 25 cents a pound just before Thanksgiving. Chickens sold for from 14 to 18 cents. This year the prices will be considerably lower than that, according to the present outlook.

NARROW ESCAPE

Of Isaac Steiner from Death Under Trolley Car.

Isaac Steiner, son of J. C. Steiner and returning to his home in the country, had a miraculous escape from death, near Bluffton.

His horse became frightened at a Western Ohio electric car and dashed directly in front of it, the car striking the buggy and demolishing it. Young Steiner was thrown from the vehicle, falling alongside the rapidly moving car and narrowly escaped being run over by the wheels. He was badly bruised, while the horse escaped uninjured.

LARGE ATTENDANCE

d Interesting Discussions Were Features of the Session.

sident of Ada Normal School One of the Speakers.

The sixty-second session of the District conference convened in Cridersville Monday evening at 7 o'clock. Presiding Elder Bowers, in chair. The Rev. K. L. Smith of St. spoke from St. Luke 11:13, of influence and power of the Holy in his life and work.

Sunday morning after devotion the session was called by the secretary of the session. Twenty-one of the

eight pastors, one superintendent, Rev. J. F. Mounts, of Van Wert, local preachers, two exhorters, class leaders, five stewards and Epworth League president were

present. Kennedy was elected secretary, M. Monosmith treasurer. The

ary committees were appointed. Reports from the various mem-

bers of the conference of the state of work in their charges. The re-

port indicated a bright outlook for the year throughout the district.

S. Worthington, pastor of Spence circuit, addressed the conference upon "How to Advance the

Church." The discussion of this subject was continued by Rev. L. H. of Van Wert circuit.

S. L. Roberts, field agent of the "Home" and "Hospital" of the

read a characteristic paper upon the work of that institution. His

work was commended by the conference and the pupils of the district

to him. C. M. Monosmith then preached a thoughtful sermon from "My

ALL COWS LOOKED MUCH ALIKE TO HIM.

Geneseo, N. Y., Nov. 1.—An interesting case has been on trial in the Supreme court in Geneseo and has been eagerly followed by the large crowd in attendance at the court. It is the action entitled Orrin Gardner against Edward Bennett. The parties live in Groveland.

Charles Bennett, a nephew of the defendant, is a son-in-law of Gardner, the plaintiff. He had a cow belonging to his father-in-law, but wished to have another one and so borrowed the necessary money from his uncle, Edward Bennett, and gave a note as security. Later he moved to another house, taking both cows with him.

The uncle, becoming apprehensive, went to get the cow, fearing that he would never see the money due him; but by mistake took the wrong cow and drove home the animal owned by Orrin Gardner.

Mr. Gardner learned of this and went to Bennett's farm and got his own cow. Bennett heard of the circumstance, but did not realize that he himself had made a mistake and had Gardner arrested.

When the circumstances were explained to Justice G. W. Rowley of Geneseo, Gardner was released at once. He then sued Bennett for malicious prosecution and the action was tried in the supreme court.

How to Cure a Cold. The question of how to cure a cold without unnecessary loss of time is one in which we are all more or less interested, for the quicker a cold is gotten rid of the less the danger of pneumonia and other serious diseases.

Mr. R. W. L. Hall, of Waverly, Va., has used Chamberlain's Cough Remedy for years and says: "I firmly believe Chamberlain's Cough Remedy to be absolutely the best preparation on the market for colds. I have recommended it to my friends and they all agree with me." For sale by all druggists.

THE STAGE.

There are more than a score of song hits in "The Prince of Pilsen" and each one of them has held an enduring grasp on popular favor. "The Song of the Cities" is one of the most impressive and popular of the musical numbers. "The Message of the Violet," "The Tale of the Sea Shell," "The Stein Song" with a chorus of Heidelberg students, and "Pictures in the Smoke" are other big song hits largely contributed to the emphatic success of this musical play. This popular musical comedy comes to the Faurot Opera House to-night.

Red Flash, the famous Indian Runner, who carried Custer's last message, is one of the most interesting of a group of famous Red Men, who formed the attacking party of the fort, in "The Flaming Arrow," the romantic drama by Lincoln J. Carter which plays at the Faurot to-morrow night.

Harry Hastings' Black Crook, Jr., Burlesquers furnish the fun at Faurot Opera House Saturday night. There are two burlesquers in the show. The olio contains some excellent acts.

STONE MAKES DENIAL.

Says Locomotive Engineers Made no Threats Toward Western Roads.

New Passenger Equipment Being Planned for W. O. System.

Word comes from the headquarters in Chicago that the Switchmen's union has waived its demand for an eight-hour day, made recently in conjunction with a demand for increased wages, and that in further negotiations the men will insist on an increase of five cents an hour. This compromise measure, it is said, is the result of the flat refusal of the railroad managers to grant the reduction in hours.

Railroad officials express the opinion that the demand for a five-cent increase will not be granted, but that, as both sides to the controversy show a disposition to make concessions, the possibility of a strike is growing less. The railroad managers have offered an increase of two cents an hour, providing the employees will withdraw their demand for a shorter workday.

Warren P. Stone, grand master of the Brotherhood of Locomotive Engineers, is quoted as denying that his organization has made demands on the western roads for increased pay or shorter hours. "The publication of such a story was simply a canard," he said. "What action the Brotherhood may take in the future I cannot say at this time, but I do want to emphasize the denial that anything of the kind has taken place. The man responsible for this was unfamiliar with the situation and overreached himself."

ALL NEW COACHES.

Three Roads to be Equipped With Fine Cars in Near Future.

F. D. Carpenter, manager of the Western Ohio, was in town Saturday and during a brief conversation stated that the Western Ohio, Dayton & Troy and the T. U. and S. were preparing specifications for ten new coaches which will be placed between Dayton and Toledo. The cars will be the most comfortable, commodious and palatial ever placed on lines in the United States. The management of these two roads are making an attempt to render the patrons of these lines the finest service obtainable. Findlay Republican.

Crossing Controversy Settled. The New York, Chicago & St. Louis railroad and the Lima & Toledo Traction company reached an amicable settlement of their difficulties yesterday afternoon and will now proceed to construct their crossing. The two roads have been disputing for some time over the character of the crossing to be built, and the Nickel Plate until a few days ago had an injunction forbidding the traction line to cross.

Judge Ogan removed the injunction, but the case was carried to the circuit court. An agreement was reached yesterday, each road will pay its own costs and the crossing will be constructed at once.

Traction Mileage Book.

Announcement was made at the offices of the Schoepf-Dolan-Morgan traction interests yesterday that about the first of the month a new interchangeable mileage book will be issued. This will be the first straight mileage book ever placed on sale by a traction line in this section of the country. The book will sell for \$15, covering 1,000 miles, and good for bearer and parties of more than one. The book will be good on all the syndicate lines in Ohio and Indiana, and will be good over the following roads: Indiana, Columbus and Eastern; Lima and Toledo; Cincinnati Northern; Indianapolis and Martinsville; Indianapolis and Eastern; Richmond and Interurban Railway company; Indianapolis and Western; Indianapolis and Northwestern; Indiana Union; Wabash Valley Electric company and others.

ELECTION BOARD TRIAL TOMORROW.

By Associated Press.

New York, Nov. 1.—As a result of a letter sent by W. R. Hearst to Judge Soloski, charging gross criminal negligence on the part of the members of the board of elections, he alleged in the mutilation of petitions filed by candidates of the Independence league, McDonald DeWitt, a lawyer in the offices of Clarence J. Searn, appeared at the district attorney's office today accompanied by witnesses to testify in support of Mr. Hearst's contention. They are the men who made affidavits to the truth of the statements. Among them are Franklin Quinby, candidates for congress from the eighth district, Benj. Berger, a candidate for assembly; Joseph Webber, who corroborates Quinby's affidavit; Godfrey Leonard, a candidate for the assembly, and Thos. P. Long, a senatorial candidate.

After the preliminary hearing District Attorney Jerome said: "Evidence of larceny has been presented but the name of the culprit has not been established."

Mr. Jerome said that witnesses will swear to the depositions, whereupon summons will be issued for the members of the board of elections in John Doe proceedings. It is expected that the members of the board will be examined before a magistrate tomorrow.

MASTER COULSON

Delightfully Entertained a Party of Friends.

One of the most delightful of the numerous Halloween gatherings last night was that given by Master Joseph Coulson, of 323 north Pierce street, to thirty of his little friends. The home was tastefully decorated with emblems significant of the occasion and games were indulged in till 9 p. m. Prizes were awarded Miss Lucille Knisely and Master Donald Mehaffy for the best writing, all contestants being obliged to balance themselves on a gallon crock while exhibiting their skill. The little merry-makers were all dressed in fancy costume, presenting a very pretty and unique appearance. Mother Katzenjammer and Father Meg tendered their services for the evening, the latter telling the fortunes of each one.

DEMOCRATS: DO NOT OVERLOOK THE FACT THAT THE DEMOCRATIC TICKET IS FIRST ON THE OFFICIAL BALLOT THIS YEAR FOR THE FIRST TIME SINCE THE AUSTRALIAN BALLOT SYSTEM WAS INTRODUCED INTO OHIO.

INDIANS SPLIT INTO TWO BANDS.

Sheridan, Wyo., Nov. 1.—The Utes evidently have split into two bands. Telephone reports say that one band is on Bear Creek, 20 miles southeast of Birny, Mont., and that the other band is camping along Hanging Women Creek in the Powder Valley. Two officers and sixteen troopers arrived from Birny today. They report that the main command from Ft. Kellogg is at Ashland and has seen no Cheyennes. Col. Augur today broke camp at Shreve's ranch, 40 miles north of Sheridan. He was expected to reach Birny early this afternoon. Captain Willman and signal corps left Sheridan this morning for Birny taking wire to connect the field forces with the telephone from Birny to Sheridan.

PERSONAL MENTION.

Mrs. J. E. Nicholson, of Toledo, is the guest of Mrs. O. A. Urbon, of 114 south Pierce street.

Mr. W. H. Lette, the attorney, has been confined to his home since last Friday with an attack of lumbago. The report comes that he is improving and will be at his office to-morrow.

Aunt Martha Crites, as she is spoken of by her many friends, is very ill at the home of her son-in-law, M. J. Sanford, No. 516 west Market street. Her sickness has developed into pneumonia and the attending physician can give but little encouragement as to her recovery on account of her advanced age.

Mrs. Thos. Walthers, of Perrysburg, is the guest of her daughter, Mrs. Hugh Frances, of east Vine street.

We have always enjoyed a phenomenal coat business, but there has been a remarkable increase this season. We know the reason of this big increase in our coat trade. Our customers know why, too, and we would like every woman in Lima and Allen County to know the reason. A visit to our coat department at any time and a careful inspection of our styles and prices will make the reason apparent.

All our coats are made of good material, are well tailored and stylish. Even our cheapest numbers are of the reliable, trustworthy kind.

Ladies' coats from \$4.85 up to \$25.00 each.
Misses' Coats up to \$18.00.
Children's Coats up to \$12.50.
Infants' Bear Skin Coats at prices that will please you.

Best quality Bear Skin cloth, 50 in. wide in cream, gray, green and blue. Special at \$2.45 a yard.

We want to call special attention to our wonderful values in Furs. We can save you from 50 cents to \$5.00 on Furs.

NOTICE. Mr. Peer, representing one of the largest manufacturers of ladies' coats will be with us Saturday. If you want something special, don't fail to call. Special attention given to extra sizes.

RICH WESTERNER FIGHTS GAS BILL.

Tacoma, Wash., Nov. 1.—Henry Hewitt, millionaire lumberman, and reputed to be one of the few wealthy men in the northwest, and who by common report is the richest man in Tacoma, has just fought through to a successful issue a suit brought against him by the Tacoma Gaslight company for the sum of \$3.60.

The whole suit hinged on whether Mr. Hewitt had used the gas for which he was charged. He declared that he ordered the meter out of his home last February, testifying that the gas bills were getting higher and higher until they finally reached \$30 a month. Then he thought if he continued to use gas he had better make it himself and save money. Nevertheless the company refused to take the meter out, but continued to charge up bills notwithstanding that no gas was being used, he having ordered a domestic boycott of the light company. Attorney McLane and Mr. Hewitt had several wordy encounters, the lawyer trying in every way to get Mr. Hewitt to admit that he used the gas. Then came the question of whether a meter would register a consumption when the gas was not being used. The gas experts, present as witnesses for both sides, learnedly differed and gave their reasons. The Hewitt experts declared that meters frequently went on tangents and got crazy spells, while the gas company's experts brought evidence to show that a gas meter was as infallible in its operations as the planets in their courses.

The attorneys for the company freely accused Mr. Hewitt of taking advantage of his wealth and position to beat a petty and legitimate bill, and brought witnesses to prove that he had made misstatements. He gave these the lie point blank and the court had hard work to maintain order. After being out some time the six jurymen brought in a verdict for Mr. Hewitt.

DEMAND MADE

To Be Tried Separately
on Charges.

Defense Was Accommodat-
ed and the Wife is Now
on Trial.

BEAVERDAM IN COURT.

Over Fifty Witnesses At-
tending the Blackburn
Case.

David Orwig Was Acquitted
by the Jury on Charge
of Larceny.

The rather sensational indictments
returned against C. E. Blackburn and
his wife, Josie Blackburn, have
reached the stage of trial in the criminal court.

Man and wife were indicted for bur-
glary, larceny and receiving stolen
property. It was a joint indictment
against the two but separate trials
were demanded by Attorney T. R.
Hamilton, representing the defense.

The prosecuting witness is Alice
Bolinger, residing near Beaverdam,
who alleges the Blackburns entered
and robbed her home several months
ago, among other things stolen being
a dress pattern which she later re-
sized on Mrs. Blackburn at the county
fair.

The village of Beaverdam is almost
here en masse, at the trial of the case,
the court room behind the rail being
crowded, and included in the wit-
nesses for the state most of who were
introduced this morning were: Alice
Bolinger, Mrs. Ida Turner, Anna
Davis, Paul Hight, Mrs. Ida Goodwin,
Forest Heitzman, Stella Williams and
John W. Manges. One of the women
testified she purchased the piece of
dress goods for the Bolinger woman,
and identified it. However, on cross
examination she acknowledged the

pattern came from a bolt, she herself
purchasing some like it, as did other
women. She therefore could not pos-
sibly state the pattern worn by Mrs.
Blackburn, and being used in the
court room, was in fact that she had
purchased for her friend.

Witnesses for the defendant are
many and those from Beaverdam in
attendance at the opening session
Thursday were as follows: D. C.
Cowan, Calvin Phillips, Dr. J. J.
Haines, Dr. T. H. Goodwin, James
and Eliza Buchanan, Madison Edge-
comb, M. L. Young, L. F. Parker, L. B.
Ward, Wm. McBride, Henry Hardesty,
C. E. Blackburn, husband of the de-
fendant; Mr. and Mrs. Wm. Newman,
Mr. and Mrs. Bert Earnest, Ray and
Selma Newman, Hazel Fowler, Harriet
Solomon, Mr. and Mrs. Wm. Frutchey,
Hattie Williams, Alva Huestein,
Richard Clark, Wm. Yeakum, Mr. and
Mrs. James Morton, Bessie Ryan, Mrs.
Henry Shull, Mrs. Lawrence Crider,
Corn Weaver, Allen Phillips, and L. C.
Chibler. Many of these it is understood
will be used by the defense as char-
acter witnesses.

ORWIG WAS ACQUITTED

Night Session Held in the Chicken
Theft Case.

David Orwig, indicted by the grand
jury on the charge of chicken thefts,
the test case being made in the al-
leged crime perpetrated at the Bowsler
home in Shawnee township, when a
large number of fowls, afterwards
claimed to have been recognized by
Mrs. Bowsler, were stolen. The court
refused to permit the testimony of
either Sheriff Van Gunton or Deputy
Sheriff Barker being admitted, their
interference having come on a differ-
ent date. The state had small evi-
dence to offer after this, and the jury
was held for the arguments yesterday
afternoon, to an adjourned session at
7:30 o'clock. The jury was out but
25 minutes when it returned a verdict
of not guilty.

Taken to Mansfield.

Deputy Sheriff Barker left this af-
ternoon to escort Harley Point to the
Mansfield intermediate penitentiary,
where he goes on his plea of guilty to
having stolen the horse of Recorder
Fred Zeits.

State Rests.

The state rested its case at two
o'clock and the defense began the in-
troduction of the many witnesses in
the endeavor to prove Mrs. Blackburn
was being assisted during a large por-
tion of the winter.

FOOT INJURED

Capt. Vermillion of the
Fire Department

Was the Victim of an Acci-
dent Which Occurred
Last Night.

STOPPED BY A TRAIN,

He Attempted to Board the
Chemical Wagon at the
Railroad Crossing.

Slipped on Icy Crossing and
Wagon Wheel Went
Over His Foot.

About 8 o'clock last night the fire
department was called out on ac-
count of a fire which was consuming
a barn on property occupied by a
man named John Williams, outside
the corporation line northwest of the
city. The department made the run
but could not get within reach of the
fire and the building was consumed
with a moderate loss to the owner.

When the team drawing the
chemical wagon reached north Eliza-
beth street and the Pennsylvania
crossing it was stopped on account
of a freight train which blocked the
crossing. The team was then driven
to the West street crossing and was
stopped there and Capt. Marion Ver-
million walked to the track to see
how the chances were for getting the
crossing cut or the end of the train
pulled over it. Finally the train
passed and he started to get onto the
wagon again as it passed him but
slipped on the icy crossing and one
of the wheels of the heavy wagon
passed over his right foot, bruising it
severely. As a result of the injury,
Capt. Vermillion will be off of duty
for some time.

This afternoon at 1:45 o'clock a
telephone alarm called the depart-
ment to the third house north of
Halle street on Elizabeth street, but
when the firemen arrived there they
found no fire and could not locate
the source of the alarm.

COLDEST MORNING

Of the Fall of Nineteen Six
Noted Today.

This was the coldest morning of the
fall-winter season of 1906-7, and the
thermometer was caught at various
places over the city at eighteen de-
grees above zero, far below freezing.
Ice formed everywhere, and some dis-
comforts were noted. The sun coming
early caused a warming up before the
noon hour, and though the coldest
morning it is one of the most pleas-
ant days of the autumnal season.
